

Challenge stereotypes	Raise the profile of my school
Develop friendships	Show learners they can do something practical to help others
Develop the curriculum	Challenge and improve my teaching
Have fun	Attract funding to my school
Travel abroad	Provide information for my geography classes about a distant place
Strengthen the local community	Give my students the chance to practice a foreign language
Advocate on behalf of others less fortunate	Use computers to communicate
Enable learners in both schools to become active global citizens	Introduce my students to more diverse communities
Make learning more meaningful	Learn more about Information Technology (computers and the internet)
Provide challenging and reflective learning environments	Motivate staff and learners
Stretch myself and my students	Encourage openness to new ideas and ways of thinking
Get help for my school	Provide real audiences to practice communication skills
Provide learners with a good example to follow	Illustrate how local and global are interconnected
